

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service, especially when I use it so little! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. This is unfair! Let's distribute the tax burden equitable: those who call more, pay more!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Marilyn Burleigh
